EXPORTAR: VÍDEO E ÁUDIO

The screenshot displays the 'Export Settings' panel of a video editing application. The 'Format' is set to 'Windows Media' and the 'Preset' is 'Custom'. The 'Output Name' field is highlighted with a red oval and contains the text 'videoplayback.wmv'. Below this, the 'Export Video' checkbox is checked. The 'Summary' section provides details on the output file's location and specifications, including resolution (1920x1080), frame rate (29.97 fps), and audio settings (No Audio). The 'Video Codec' section is partially visible at the bottom, showing 'Windows Media Video 9' selected.

CONFIRMAR EXPORTAÇÃO

The screenshot displays the Adobe Premiere Pro interface during the export process. The main workspace shows a cartoon cow character with the text "Lui Trupe" and "Desenhelros seu universo criativo". A small window titled "Encoding videoplayback" is overlaid on the center, showing "Pass 1 of 2" and "0%" progress. The "Export Settings" dialog box is open on the right, with the "Output" tab selected. The "Format" is set to "Windows Media", the "Preset" is "Custom", and the "Output Name" is "videoplayback.wmv". The "Summary" section shows the output path and source details. The "Video Codec" is set to "Windows Media Video 9". The "Basic Video Settings" section shows a width of 1,920. The "Export" button is highlighted in the bottom right of the dialog box. The Windows taskbar at the bottom shows the search bar with the text "Digite aqui para pesquisar" and various application icons.
