

# Business English Vocabulary

---

## deficit

### definition:

the amount of money that is less than the amount needed; the amount of money spent by a business or government that is more than the money it receives

---

### example:

The nonprofit organization had several big fundraising campaigns during the year. Unfortunately, the organization still reported a deficit that year. Their expenses were greater than the money they received.

+	\$300	-	\$2,000
	\$100		\$5,000
	\$200		\$1,000
